S&P Rating Action
S&P improved outlook from stable to positive and affirmed BBB- rating

S&P Global Ratings improved its outlook of Indigo Group on July 07th 2022 from stable to positive and affirmed the BBB- rating. This rating action reflects the Group's FY2021 outperformance compared to S&P's expectations published on July 14th, 2021, in terms of FFO/debt and debt/EBITDA adjusted ratios that went back to pre-pandemic levels and the fast recovery of the traffic, which started as soon as mid-May 2021.

The Group managed to exceed S&P's projections for FY2021 thanks to the exceptional commitment of its employees, the resilience and endurance of its infrastructure business model and the implementation of the new strategic plan "Beyond Covid". The decline in activity generated by the lockdown waves was contained thanks to the excellent diversification of its asset portfolio in terms of geographies, segments, types of contracts and types of revenues, which enabled a rapid recovery as soon as the restriction measures were relaxed. Despite the decline in revenue in 2020 and the first half of 2021, and the strong investments carried out to seize unique opportunities, the Group decreased its stable net financial debt thanks to cost optimizations, proceeds from the disposal of non-strategic assets and stakes, contract renegotiations allowing a reduction of IFRIC 12 and IFRS 16 debts, and limited dividends paid to its shareholders over the past years.

In the last few months, the Group kept implementing its strategic plan to strengthen its infrastructure model and prioritize markets where it holds a controlling position, illustrated by the sale of its 50% interest in LAZ Karp Associates LLC in the United States. Through an active and flexible debt management policy, part of the proceed was used in May 2022 to repurchase €121.5 million of the €650 million bonds maturing in 2025. Indigo Group targets to maintain a strong liquidity and has confirmed its prudent financing policy, especially thanks to the absence of corporate financing needs before 2025, a fully undrawn committed revolving credit facility of 300 million euros and a steady net cash position of 410 million euros as of March 31st, 2022. It has also been pursuing its growth strategy with targeted investments in its core business to enrich its long-term infrastructure portfolio in its existing geographies notably in France with the acquisitions of the off-street parking activities of Transdev Group and Covivio and in Brazil with the agreement signed with Patria Investments on a business combination between its subsidiary PareBem and Indigo Group's own Brazilian subsidiary.

Despite the remaining uncertainties concerning the evolution of the pandemic and the current economic context, S&P anticipates the pursuit of fast and solid recovery of the Group's activity and estimates that the Group revenue will recover to 2019 levels in 2022. Along with this strong recovery, S&P expects that the Group will mitigate inflationary

pressure through its contract's diversification and indexation mechanisms, demonstrating the resilience of its business model.

As a result, financial leverage should remain from 2022 onwards in line with pre-pandemic levels, as already reached in FY 2021. As illustrated in 2020 and 2021 with its conservative financial policy, the Group intends to maintain a solid Investment Grade rating and respect S&P's defined thresholds. The Group will rely on its large portfolio of existing infrastructure contracts (85% of Global Proportionate EBITDA in 2021¹), its business and geographic diversification, the investment opportunities that will arise and potential disposals of assets to pursue its infrastructure strategy.
